1. The following is an examiner's statement of reasons for allowance: The examiner could not find fair suggestion in the prior art, see Aihara et al(US 6,727,769) and Senthikumar et al(US 6,791,428), which are crystal based oscillators with current mirrors. They do not suggest a converter transistor with gate connected to buffered node for varying a current with small signal-variations on the first node; and a current mirror coupled to mirror changes in the varying current to generate a mirrored node. An output stage responsive to the mirrored node for driving an output current from the second node...(see independent claims 1⁷ and 1⁹).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled " Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Arnold M. Kinhead whose telephone number is 571-272-1763. The examiner can normally be reached on Mon-Fri, 8:30 am -5 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Robert Pascal can be reached on 571-272-1769. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
